

"One Day"
By Imagine Dragons

I know that one
Day I'll be that one

Thing that makes you happy
I know I'll keep you laughing

Your sun on a cloudy day
The feel of a perfect wave
That's crashing upon your face

Yeah, I know that one day,
One day.

Birds, outside
Will sing me a song tonight

I know that it's right
On time, time.

Life flies by the moon
In the midnight sky

Is guiding me
To your side, side.

I know that one
Day I'll be that one

Thing that makes you happy
I know I'll keep you laughing

Your sun on a cloudy day
The feel of a perfect wave
That's crashing upon your face

Yeah, I know that one day,
One day

Can we run away
To a place that

Children play in the
Grassy fields, fields.

I know that they're telling you
Things that you put in your head,
Head.

Promise you that you are better off
Without them.

I know that one
Day I'll be that one

Thing that makes you happy
I know I'll keep you laughing

Your sun on a cloudy day
The feel of a perfect wave
That's crashing upon your face

Yeah, I know that one day,
One day

I know that one
Day I'll be that one

Thing that makes you happy
I know I'll keep you laughing

Your sun on a cloudy day
The feel of a perfect wave
That's crashing upon your face

Yeah, I know that one day,
One day
