SOME TRAITS OF THE VERB - introductory information

The verb is the word or cluster of words in a sentence that denotes an "event". This "event" can be:

an action

The engine <u>runs</u> well. The children <u>are making</u> a lot of noise. We <u>have</u> already <u>seen</u> the film .

a state of being

The weather <u>has been</u> very mild this winter. Many of the participant <u>remained</u> for the final ceremonies. She <u>seems</u> nice.

something between an action and a state of being

John <u>has</u> a lot of money. I'<u>m thinking</u> about the problem. We'<u>ll freeze</u> in this weather.

a process

She <u>became</u> rich with her business. The plant <u>is growing</u> into a well-formed specimine. The weather <u>will get</u> warmer later in the summer.

a link (or equal sign)

Henrik <u>is</u> an engineer. (Henrik = Engineer) Zelda <u>is going to become</u> a Libertarian. (Zelda = Libertarian) The vacant lot <u>has remained</u> an eye sore for years. (vacant lot = eye sore)

The verb can also indicate:

time

We <u>are going</u> to the movies. (now) We <u>will go</u> to the movies. (later) We <u>went</u> to the movies. (yesterday) We <u>have gone</u> to the movies. (three times this month)

potentiality (with uncertainty)

He <u>might bring</u> me back some chocolate from Holland. I <u>could visit</u> you on Thursday. <u>Should</u> you <u>finish</u> your paper by tomorrow?

active or passive action

The wind <u>ruined</u> the paint on my garage. (active - "wind" performs action) The package <u>was delivered</u> early. (passive - "package" is acted on) We always <u>enjoy</u> thier humor. (active - "we" perform action) The restrooms <u>will be cleaned</u> over the weekend. (passive - "restrooms" are acted on)

Terminology associated with verb morphology:

"conjugation"

The form of the verb can change according to the subject pronoun. The subject pronoun is the person or thing acting out the event.

I <u>am</u> a student. (subject pronoun = I / perspective = about the self) <u>Are</u> you a student? (subject pronoun = you / perspective = to another person) She <u>is</u> a student. (subject pronoun = she / perspective = about another person)

These changes in the form of the verb are called "conjugations".

"person"

The conjugation of a verb is determined by the "person" acting as the subject pronoun. The "person" shows the perspective of the speaker: These perspectives are numbered:

about the self (I/we) = 1st person to another person (you) = 2nd person about another person or a thing (he/she/it/they) = 3rd person

"number"

The conjugation of the verb can also change according to the "number" of the subject pronoun. "singular" = one (I, she, he, it) "plural" = multiple (we, they)

She <u>earns</u> a lot of money. (singular conjugation = earns) They <u>earn</u> a lot of money. (plural conjugation = earn) I <u>am</u> interested in history. (singular conjugation = am) We <u>are</u> interested in history. (plural conjugation = are)

"agreement"

The verb <u>conjugates to</u> the subject pronoun. The verb must <u>agree</u> with the subject pronoun.

"register"

Register deals with level of politeness or familiarity when addressing a person directly. The familiar form of register in English has nearly died out. But register still exists in many European languages.

Formal register: Where <u>are</u> you? (French: *Où <u>êtes</u> vous?*; German: *Wo <u>sind</u> Sie?*) Familiar register: Where <u>art</u> thou? (French: *Où <u>es</u> tu?*; German; *Wo <u>bist</u> du?*)
