Time To Think (Black Sheep)

We take for granted, that the trees are green
We take for granted, that the air is clean
We take for granted, that there's water to drink
We should take some time, some time to think.
We take for granted, that there's food to eat
We take for granted, last night we had a restful sleep
We take for granted, there's a cure for most disease
We should take some time, some time to think.

Think about where we're going,
Where we're comin from...
Think about what we're gonna do
With this time we have in between.

We take for granted, that most ...
We take for granted, all the blessings right before our eyes
We take for granted, all the freedom most men never realize
We should take some time, some time to think
We should take some time, some time to think
We should take some time, some time to think
