# FRESHMAN INVASION IN SEPTEMBER

Welcome from the faculty.

Now it's the students' turn.

More arrivals.

Boy! This is a heavy one.

# MANUAL LABOR

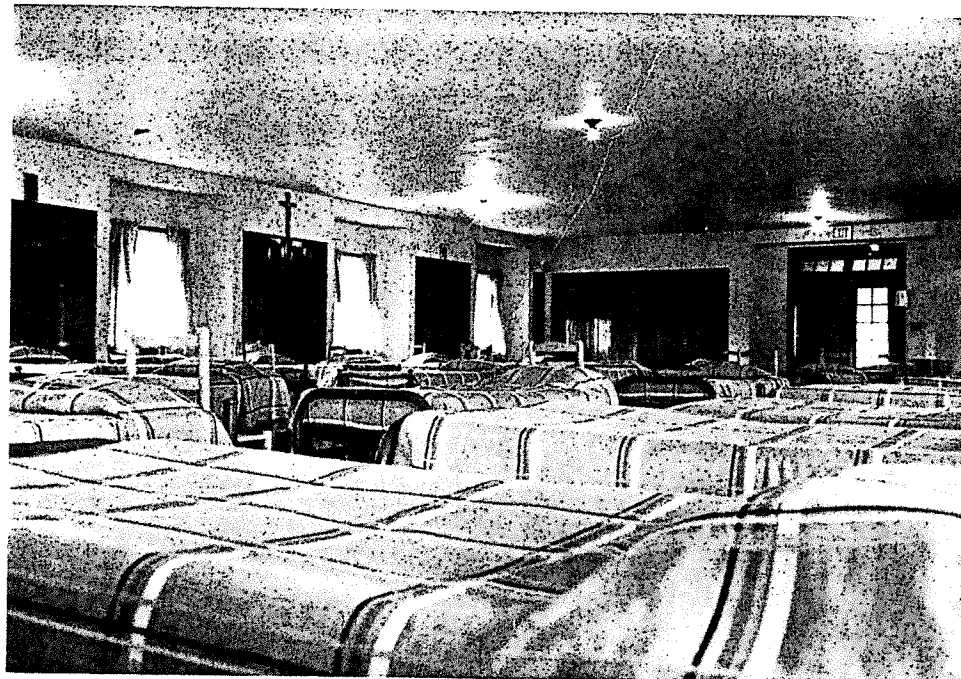

For Manual Labor we do various types of work around the house and grounds, such as: in the picture above, loading hay and as in the picture below, picking apples and of course the more strenuous jobs like the faculty rec. room below.

# ENGLISH LITERATURE AND FRENCH

In Father Nolan's English class we learned to appreciate the beauty of high expression in our own language and the art of producing the same.

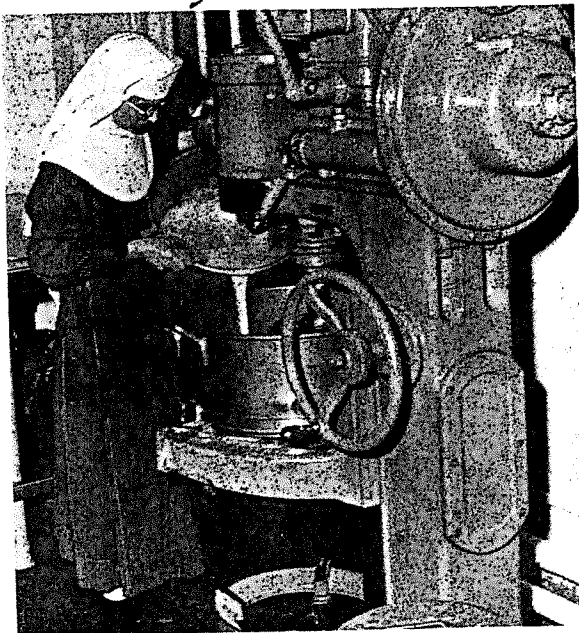

In Father Meulemans French class, we learned the language of scholarship which will greatly help us in our later Theological studies.

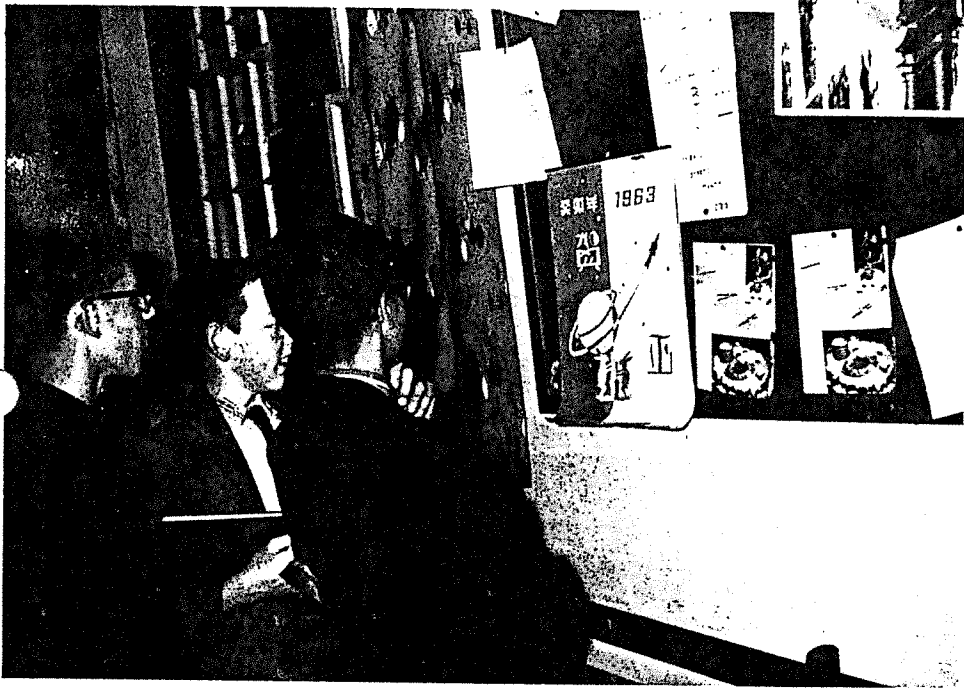

# Sisters

## MUSIC ROOM

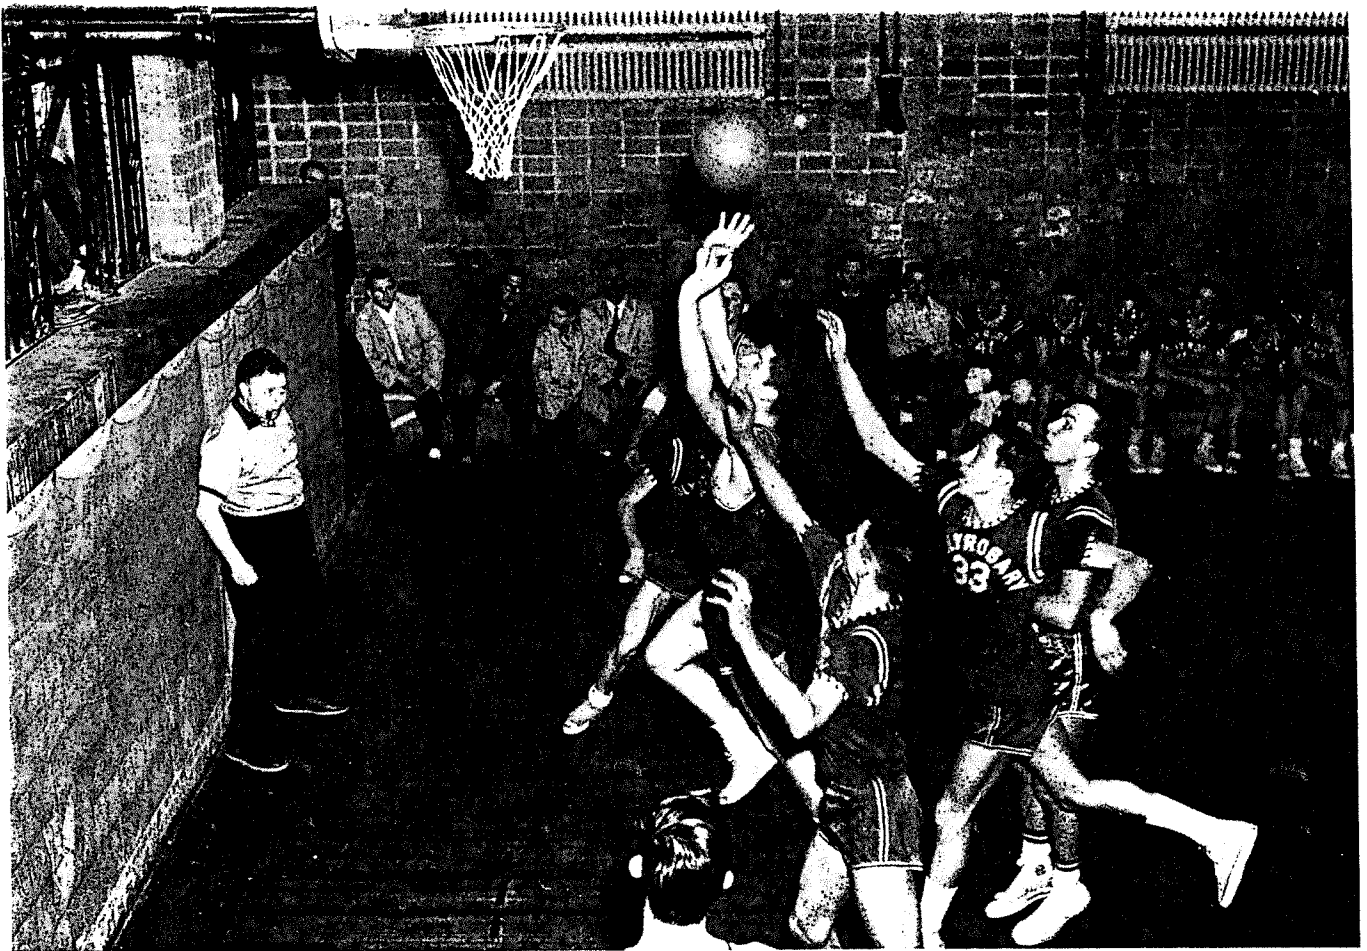

Joe Connor, Charlie McHugh, and Ed McNamara were among the many students who helped to make the Music Room what it is in the picture below.

Through the generous hard work of interested students the Music Room has been re-done in modern decor. Mention must be made of Father Condon's wise guidance and Brother Paul's talents. St. Thomas tells us that the only created object remaining in Heaven is music. May the angels and saints not blush at some of the sounds that emit from this ante-chamber to celestial happiness.

This is the same corner as in the picture above after everything was finished.

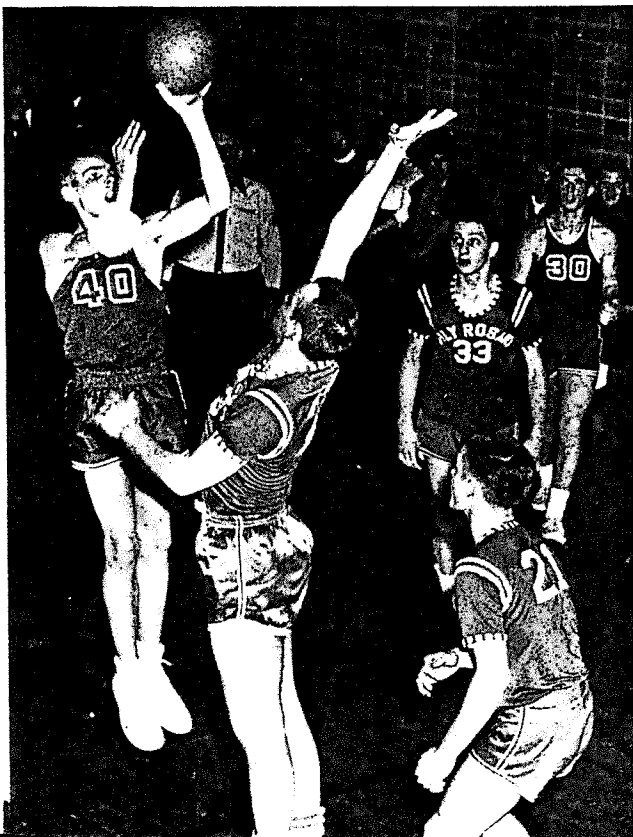

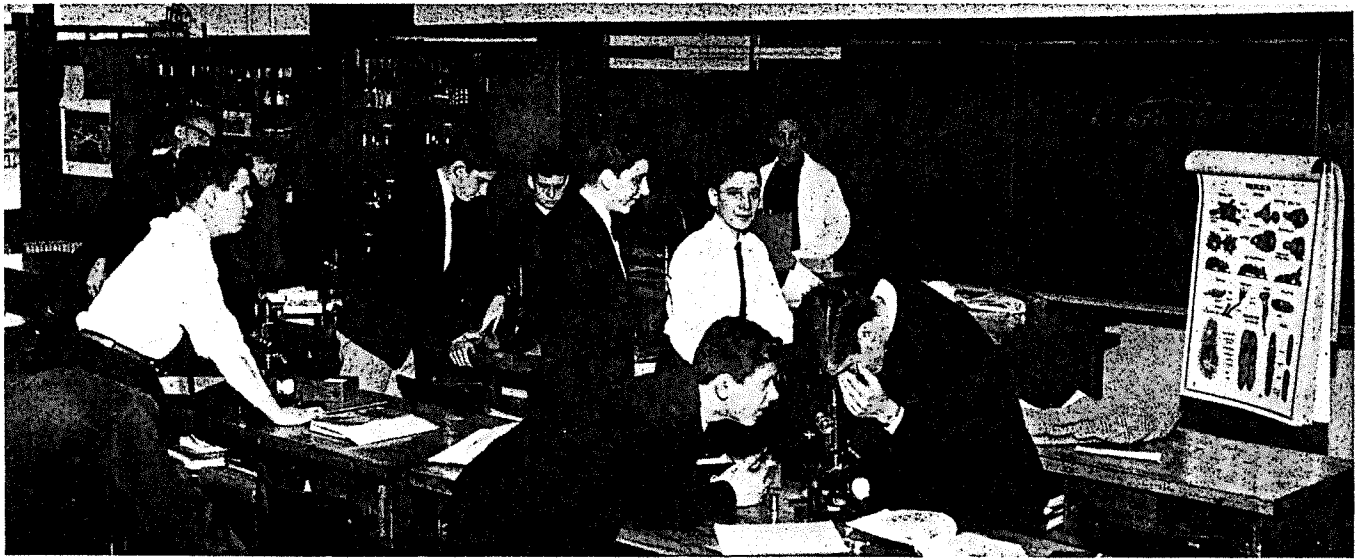

Will he make it?

Another shot; another basket.

Judging from the smiling faces of Father Grady and Father Milroy, it looks like another win.

**Biology** is intended to draw the attention of the student to the laws and design evident in nature, and to acquaint him with fundamental biological concepts. It also attempts to create interest in the structure and habits of living things. The student is given the principles of the scientific method and is trained in their use by habits of careful observation, accurate description, and logical reasoning. The laboratory course enables him to become familiar with scientific instruments and techniques, and provides the opportunity of verifying and actualizing the lecture material.

# SPIRITUAL

Rev. Thomas J. Burke, M.M., *Spiritual Director.*

*The habit of prayer is formed by degrees. You must not expect to be at the beginning of your career what you will become by the end of it. The life of Prayer is the work of grace and co-operation.*

*Everyone can attain to it if he will, because prayer — the habit of prayer — is one of the common graces which God offers to everyone. You will not obtain this gift except by getting to realize its importance and its power, by desiring to acquire it, and then by efforts, prudent and persevering, to grow in the practice of it.*

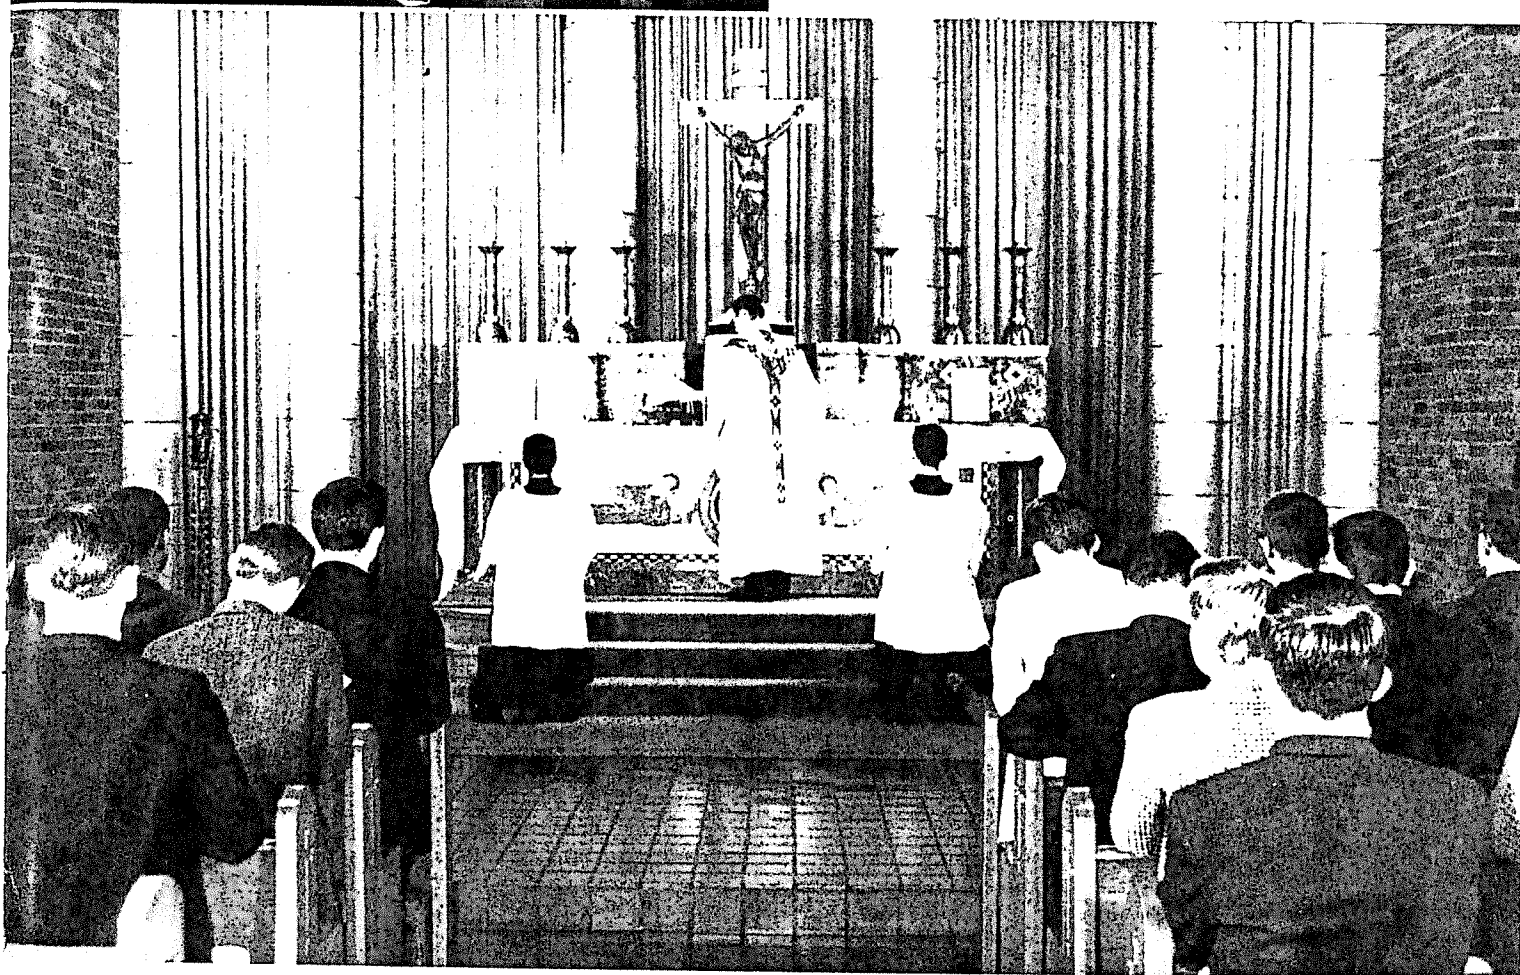

*Cardinal Vaughan*

# The Life of the Spirit

## To Raise Up Sterling Men for God

The priest must be a man of prayer. We began and ended our day with prayer in common. Some period during the day was also set aside for our visit to the Blessed Sacrament.

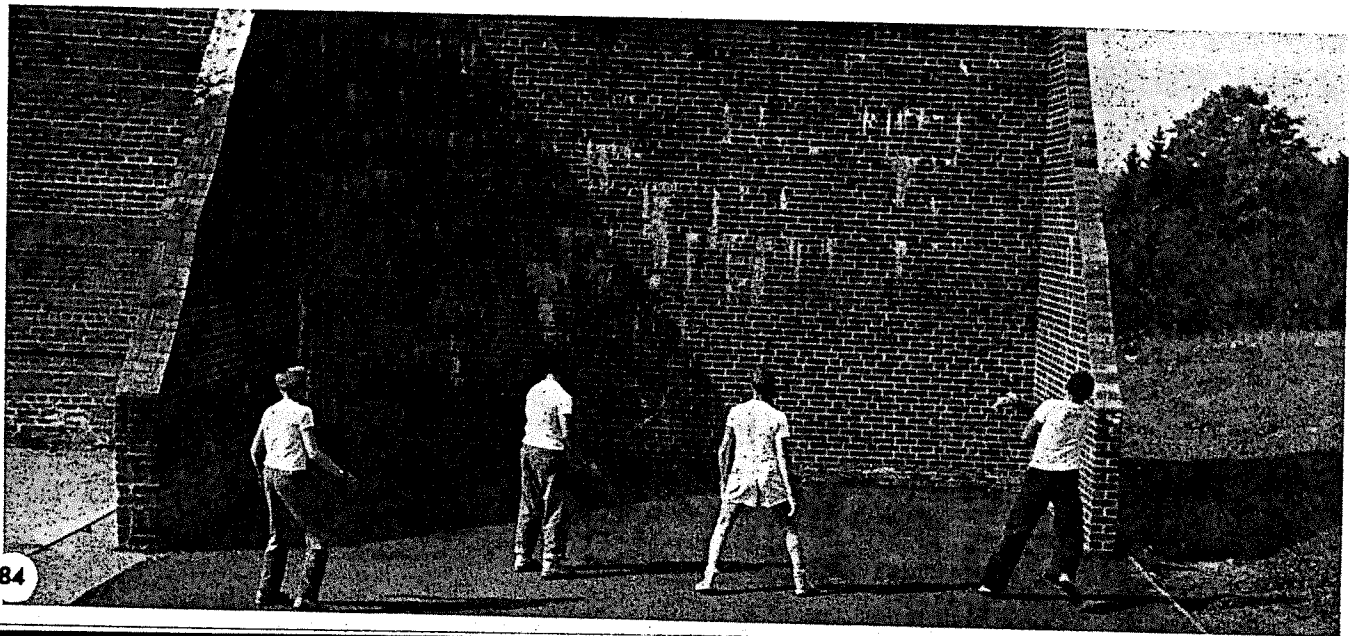

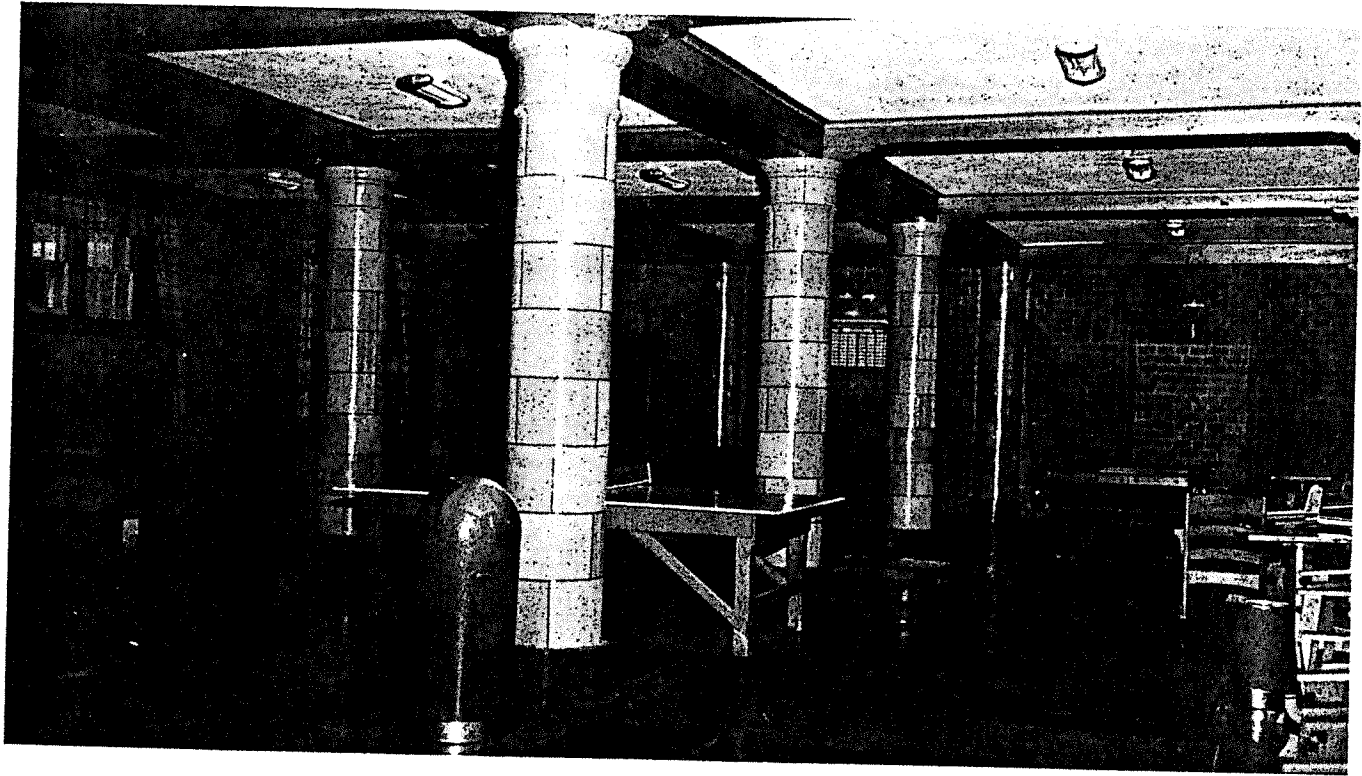

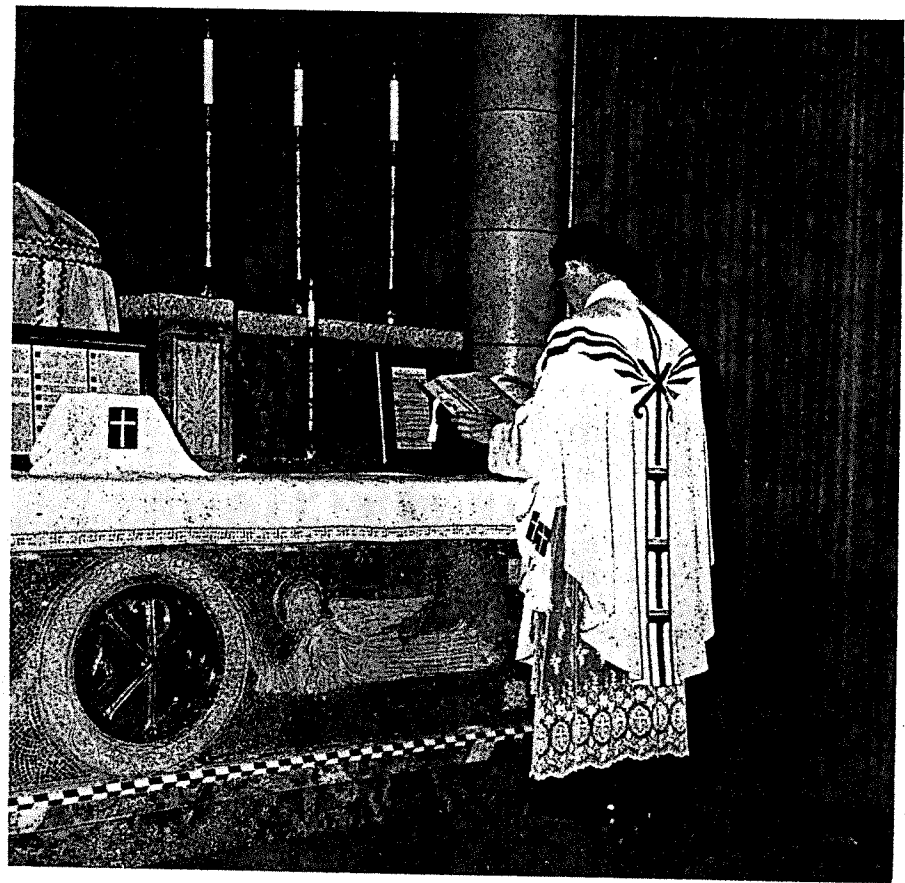

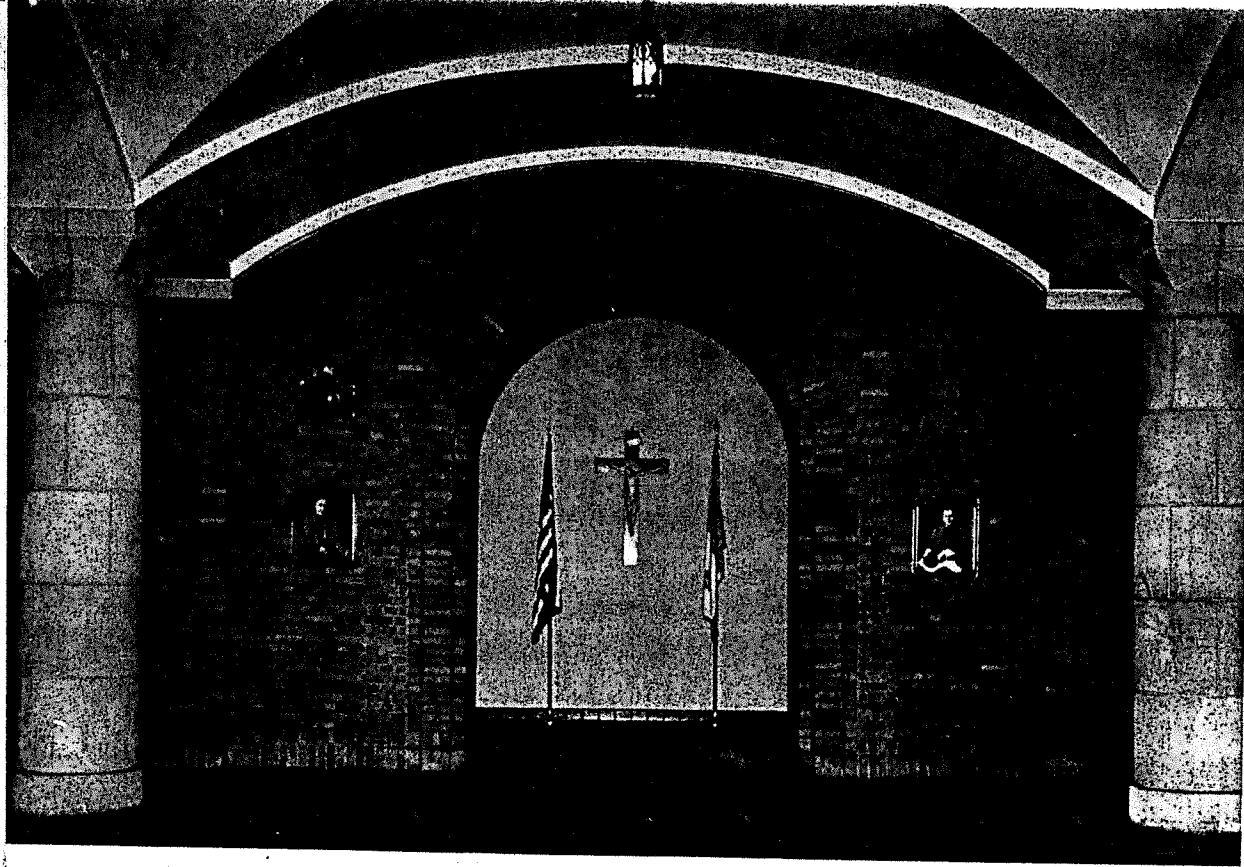

The very central act of our daily spiritual life was the Mass. It kept before our eyes the reason for our vocation, the redemptive act of Christ.

The supreme moment of our assistance at Mass came when we received Our Lord in the Blessed Sacrament.

# RECREATION

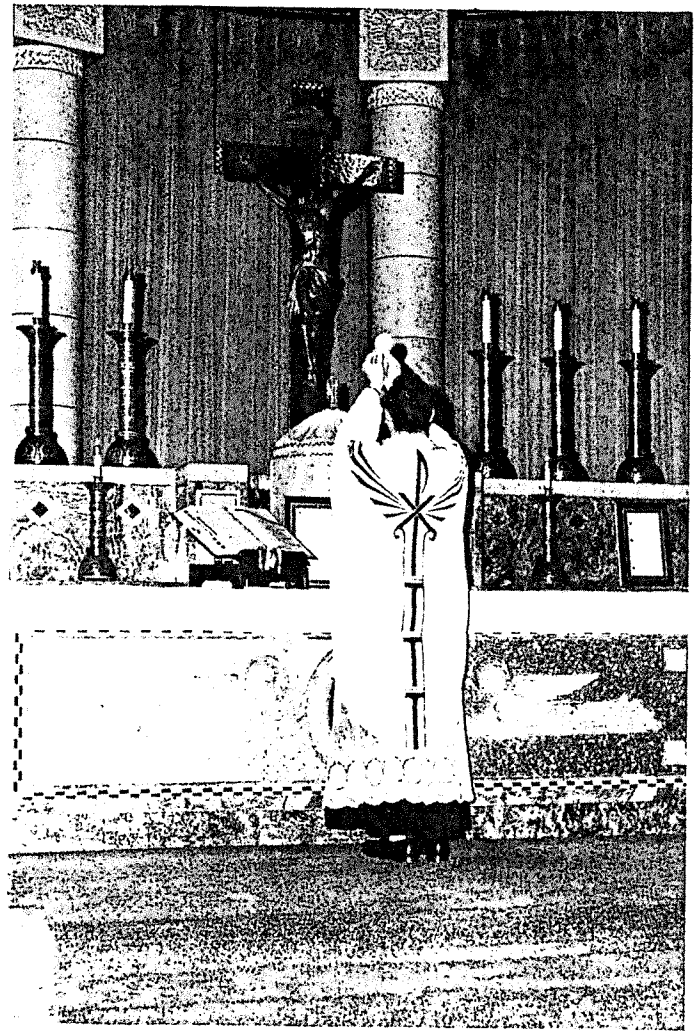

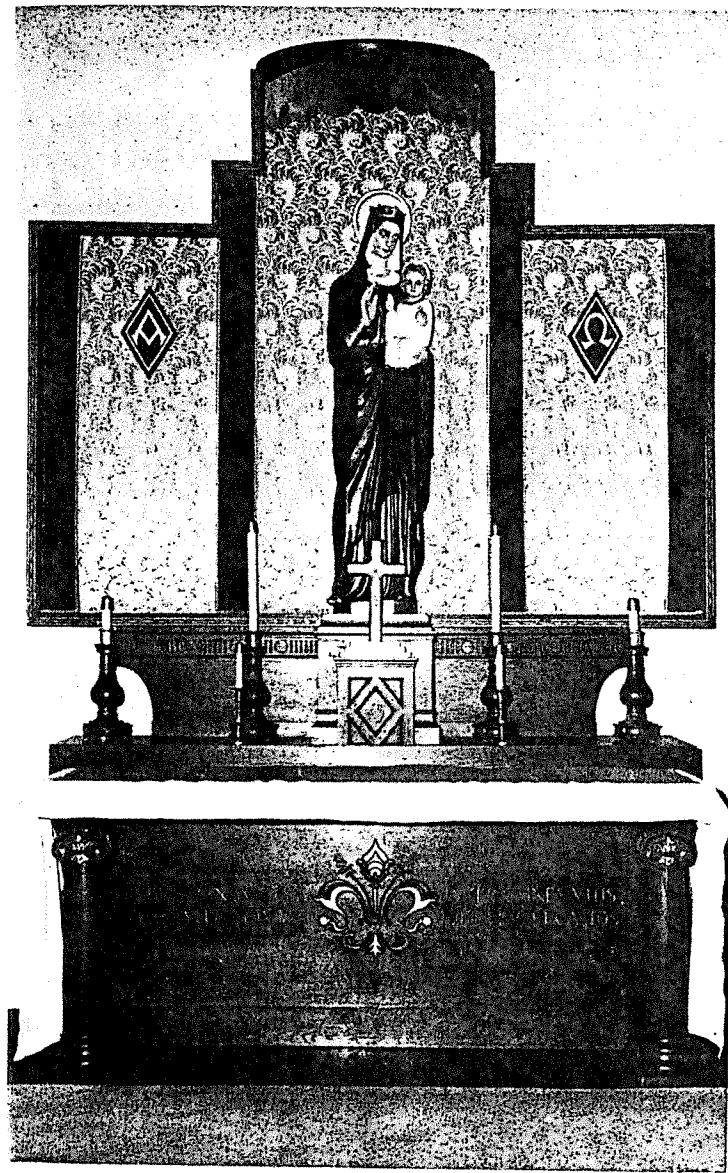

OREMUS

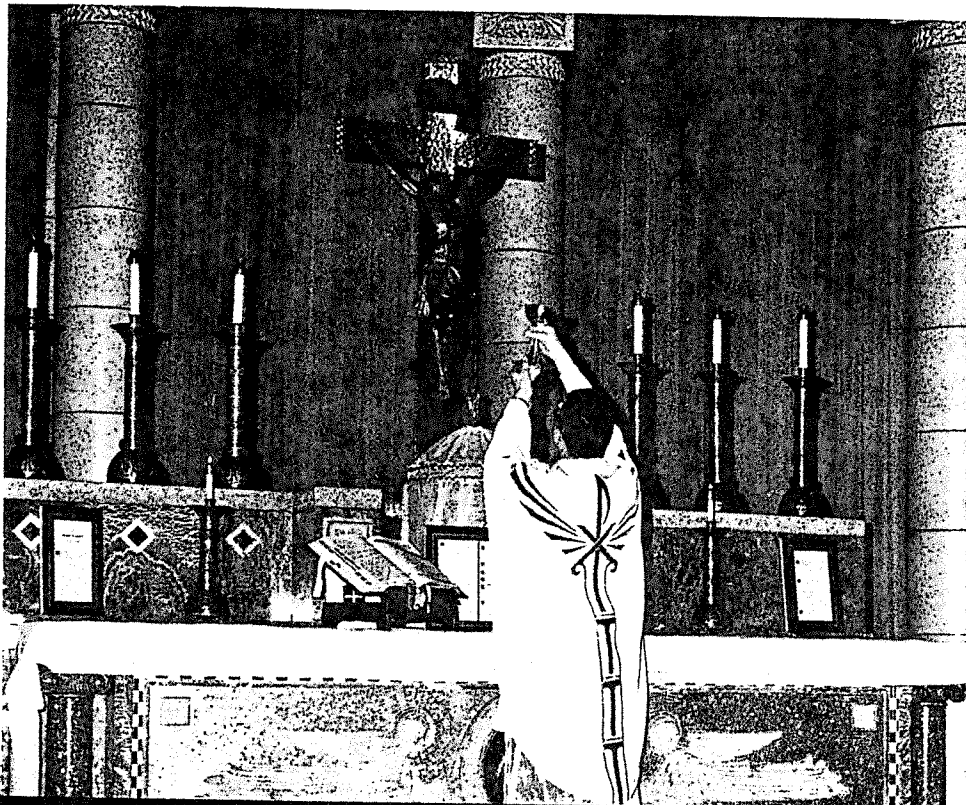

O Lord, we offer you this sacrifice in atonement for our sins. May the intercession of the Virgin Mother of God and Blessed Joseph, ever bestow your peace and grace upon our families. Through the same Jesus Christ, our Lord Who lives and rules with God the Father, in the unity of the Holy Spirit, one God forever and ever.

The Lord be with you.
