Beginner | **Intermediate** | **Advanced**

¡Tell Me in Spanish!

Let's Learn Spanish Together!

¡Hola!

Thank you for downloading your Spanish Learner's Roadmap and, most importantly, joining our TMIS Insider's Community. ¡Estoy muy feliz de tenerte con nosotros!

As a Spanish teacher, I spent a long time teaching the beginner levels. And many students were so intimidated by starting to learn a new language. But, as you can see in the roadmap, each level (beginner, intermediate, and advanced) is formed by a clear list of topics that can be classified into 5 categories (you can see them on the roadmap).

The Spanish Learner's Roadmap I sent to you is yours. This means that you can print it out to put in your binder, notebook or even pin it up on your wall. Doing this will allow you to check off the topics as you learn them. Nothing like seeing the progress we make in our endeavors, right?

But, I also recommend you to keep a digital copy on your email or phone. Why? Because the digital version has some links to my articles, guides and other resources on TellMeInSpanish.com. That way, if you're struggling with a topic, you can click on the link and read more about it.

Unfortunately, I haven't published guides and resources for all the topics I listed on the roadmap yet. Over time, my plan is to provide you with articles and guides for most of these topics. Just be patient with me :) Once I catch up, if you're still on our list, I'll let you know when there's a new article or guide related to the roadmap and I'll send you an updated version of the roadmap to your email.

Something you should know about me is that I love Spanish. And over the years, I've seen people struggling to learn this language. My goal with TMIS is to help you and other Spanish learners with those really challenging topics that - no matter what you do - seem to be impossible to understand.

So, if you're interested, stay tuned! ¡Gracias de nuevo y nos vemos pronto!

Daniela Sánchez

¡Tell Me in Spanish!

Learning Spanish: Beginner's Roadmap
