# Introduction / Introducción

There are actually **230 verbs** in this list. I've compiled it from an excellent online [Spanish Corpus](#) that has analyzed the frequency of use of Spanish vocabulary, including the verbs below. From this corpus, I've only curated the most commonly used verbs that beginners and lower-intermediates need for practice and real-world Spanish use. I've sorted the verbs based on frequency of usage. You can use these verbs to expand the range of ideas you wish to express in Spanish.

I've also included the lists sorted A-Z in English and Spanish. So, if you print them out, please keep in mind you may only want to print a range of pages for the sorted list that is most helpful for you in order to save paper!

¡Muchas gracias amigos!
